DETAILED ACTION

This allowance is in response to the RCE filed 3/17/2005 in order to consider the amendment filed after final on 2/22/2005. Examiner has reviewed the prior art of record in relation to the claim amendments and they are found to be allowable based primarily on the term "expert system" which is well defined in the specification and known in the art.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bob Hunt on April 4th, 2004.

Claims 153-155 are cancelled.

Claim 152 is replaced with the following:

152. The apparatus of claim 181, wherein the expert system controls the air monitoring system based at least in part on the acquired air quality parameter data.
